

“ The Pure is a high quality, compact, well designed bit of kit with reliable data and powerful features. It's an excellent all-in-one driver aid for the speed-conscious. ”

### [Road Angel Pure Firmware 617 Release Notes. 08.11.18](#)

#### Changes, Bug Fixes and Improvements (Pure Firmware 617)

Our new firmware has been specifically optimized for improved antenna coverage, we have developed AGPS (Assisted GPS) which will improve the time it takes for the Pure to get a satellite lock, providing you have Mobile signal (EE) in your location.

- New “R.S.L.” A new and updated version of the UK Road Speed Limit Library.
- New Assisted GPS Feature, which will improve satellite lock on time after Pure has been off for 6 hours or more.
